

Please do not allow Low Power FM to have priority over current FM service translators. There are a lot of good family valued stations out there that would be lost if LPFM has priority. I know I listen to AIR1 and even support them financially. I am an adult who is aware of the world's current situation. And in todays world, it is more important to send a positive message to everyone, to lift them up and encourage them than to allow these LPFM stations priority.

IHS,
Jodi
